SYMPOSIUM XI

**PERSONALISED MEDICINE IN PSYCHIATRY:
FROM DIAGNOSIS TO TREATMENT**

Wednesday 28th March 2012

**Royal College of Physicians,
Regent's Park, London**

A collaboration between **Progress**
and the *Psychopharmacology Special Interest Group of the Royal College of Psychiatrists*

LATEST ADVANCES IN PSYCHIATRY SYMPOSIUM XI

Dear Colleague,

We warmly invite you to the **11th Latest Advances in Psychiatry** symposium on behalf of the Psychopharmacology Special Interest Group (PSIG) of the Royal College of Psychiatrists and the journal *Progress in Neurology and Psychiatry*.

The symposium will focus on **Personalised Medicine in Psychiatry: From Diagnosis to Treatment**. We are delighted to have some excellent speakers, including Professor Peter Tyrer who will be giving the Keynote Lecture on personality disorders.

The PSIG intends that the symposium is part of a structured CPD programme, so the objective of the symposium going forward is to provide senior psychiatrists and pharmacists with independent, up-to-date, practical information that will support them to achieve their personal CPD objectives and in their everyday clinical practice. We hope the opportunity to hear from leading clinicians and to meet with colleagues will make for a productive and enjoyable day.

We look forward to welcoming you to what remains one of the premier events in the UK psychiatry calendar.

Kind regards

Professor Allan Young
Chair of PSIG

Tim Dean
Publisher
Progress in Neurology and Psychiatry
